April 15, 2015 SPEAKER BIOS

Elliot Cohen, CTO & Co-Founder, PillPack
Elliot is a scientist at heart, an engineer by training and a vocal advocate for transparent, customer-empowered healthcare. He graduated from UC Berkeley and has an MBA from MIT’s Sloan School of Management. Elliot has played key engineering roles at both healthcare and non-healthcare related startups, was an associate at Founder Collective and started his career as a program manager at Microsoft.

Anton Dodek, MD, Vice President & Associate CMO, Blue Cross Blue Shield of Massachusetts
Dr. Dodek is the Vice President, Medical Quality and Strategy and Associate Chief Medical Officer at Blue Cross Blue Shield of Massachusetts. He received his medical degree from Tufts University School of Medicine and completed his residency at New England Medical Center. As a board certified pediatrician with over 20 years of clinical experience, he has practiced in both inpatient and outpatient settings.

Dr. Dodek has also served for over 10 years as a health plan medical director and participated in various aspects of health care management including pharmacy, case management, utilization management, payment reform and quality measurement. He has also served on steering committees for patient-centered medical home pilots in Rhode Island and Massachusetts.

In addition, Dr. Dodek is an Assistant Professor of Pediatrics at Tufts University School of Medicine. He is a fellow of the American Academy of Pediatrics and a member of the Massachusetts Medical Society.

Mike Doyle, FACHE, President & CEO, QPID
Mike is an entrepreneurial and 5 time CEO with a history of creating business value in investor/venture backed, high-growth, public and private healthcare and technology companies. Most of my career has been in the Health Information Technology Area. Strengths that position me for success:

Highly skilled in raising capital privately and through the IPO process, establishing high-yield strategic partnerships/relationships and go-to-market strategies that drive competitive edge and capture critical market share.

A builder and leader of new, profitable businesses, creating industry and market leaders – I am one of the originators that branded “assisted living” to describe the market, and co-founded the national trade organization to solidify the new market segment.
Nancy Gagliano, MD, CMO, CVS/minuteclinic and Senior Vice President of CVS Health

CVS/minuteclinic is the largest and fastest growing retail medical clinic provider in the United States. A member of the CVS/minuteclinic leadership team since 2010, Dr. Gagliano is responsible for physician oversight, expansion of services and clinics, as well as internal operations. CVS/minuteclinic nurse practitioners and physician assistants have seen more than 21 million patients to date and have received a 95 percent patient satisfaction rating.

Prior to joining the company, Dr. Gagliano spent more than 21 years at Massachusetts General Hospital. Most recently, she served as the Senior Vice President of Practice Improvement at Massachusetts General Hospital where she oversaw ambulatory quality, service, operations improvement and integration of technology for MGH’s 400 ambulatory practices.

Dr. Gagliano is a graduate of Union College and Harvard Medical School. She completed her internship and residency in internal medicine at the Brigham and Women’s Hospital. In 1989, she completed a fellowship in Adolescent Medicine at The Children’s Hospital in Boston. She is a board-certified internist and practiced as a primary care provider at MGH’s Women’s Health Associates. In 2001, Dr. Gagliano was named by Boston Magazine as one of Boston’s “Top Docs” for women.

John Halamka, MD, MS, Professor of Medicine, Harvard Medical School, Chief Information Officer, Beth Israel Deaconess Medical Center

John is also the Chairman of the New England Healthcare Exchange Network (NEHEN), co-Chair of the national HIT Standards Committee, a member of the Massachusetts State HIT Council, and a practicing Emergency Physician.

As Chief Information Officer of Beth Israel Deaconess Medical Center, he is responsible for all clinical, financial, administrative and academic information technology serving 3000 doctors, 14000 employees and two million patients.

As Chairman of NEHEN he oversees administrative data exchange in Eastern Massachusetts. As co-Chair of the HIT Standards Committee he facilitates the process of electronic standards harmonization among stakeholders nationwide.

Oliver Kharrraz, MD, President & Founder, ZocDoc

Oliver Kharrraz, MD, is the President and Founder of ZocDoc. Oliver is the most recent doctor in a 300-year family tradition. Over the course of his wide-ranging career, Oliver has accrued comprehensive experience effecting change and building efficiency in large scale healthcare organizations using information technology.

Prior to ZocDoc, Oliver was an Associate Principal at the global management consulting firm McKinsey & Company. During his seven-year tenure at McKinsey &
Co., Oliver developed and implemented new patient utilization models for the national health services of a number of governments and major hospital chains.

In 1994, Oliver built and sold his first business—a forerunner of early internet software. He later became a resident doctor at the clinic of Ludwig Maximilian University in Munich, where he earned an MD and a Doctorate in Neuroscience.

Oliver also has a Masters Degree in Philosophy from the Jesuit College of Philosophy in Munich. Born in Germany, Oliver immigrated to the U.S. during his work for McKinsey & Co., where he met future ZocDoc founder and CEO Cyrus Massoumi. He currently resides in Brooklyn, NY, with his wife and their twin daughters.

Richard Milani, MD, FACC, FAHA, Chief Clinical Transformation Officer, Ochsner Health System

Dr. Milani currently serves as the Chief Clinical Transformation Officer, Medical Director of System Service Lines, Vice-Chairman of the Department of Cardiology and Director of Non-Invasive Imaging at Ochsner Health System and Professor of Medicine, at Ochsner Clinical School – The University of Queensland School of Medicine in New Orleans, Louisiana.

After receiving his Internal Medicine training at the University of Florida, Dr. Milani completed fellowships in Critical Care Medicine at the University of Florida, Preventive Medicine and Clinical Epidemiology at Harvard University (Massachusetts General Hospital), and Cardiovascular Diseases at Ochsner Clinic Foundation. Dr. Milani’s research interests involve cardiovascular prevention, including lipids, hypertension, obesity, and exercise as well as noninvasive testing, encompassing echocardiography and exercise testing. He is the author or co-author of over 500 medical publications including 20 book chapters. Dr. Milani also serves as a frequent lecturer, as a reviewer for many peer reviewed medical journals, and is on the Editorial Board of American Journal of Cardiology, Vascular Medicine, Preventive Cardiology, and Progress in Cardiovascular Diseases.

Dr. Milani was the recipient of the 2005 Computerworld 21st Century Achievement Award. His honors also include being named 2009 System Physician of the Year and 2011 Physician Leader of the Year at the Ochsner Health System.

Andrey Ostrovsky, MD, CEO, Care at Hand

Andrey is a practicing physician and social entrepreneur who leads Care at Hand's executive management and strategic vision. He has led teams at the World Health Organization, United States Senate, and San Francisco Health Department toward health system strengthening through technology. Andrey has contributed to legislation at the city and national level to advance care delivery for vulnerable populations. He is a published researcher in public health informatics, rapid cycle improvement, healthcare innovation, and care coordination.

Andrey holds a Medical Doctorate and undergraduate degrees in Chemistry and Psychology with Magna cum Laude honors and is a member of Phi Beta Kappa. Andrey is completing his pediatrics residency training in the Boston Combined
Residency Program at Boston Medical Center and Boston Children's Hospital and is a clinical instructor at Harvard Medical School.

**Eugene Spiritus, MD, CMO, VGo Communications**

Eugene has been involved in quality measurements, practice design, information technology and medical education for both physicians and patients for the past thirty years. He is interested in the relationship between cost of care and quality outcomes and believe recent technology will alter care management going forward.

Prior to joining VGo, Eugene was the President and CMO of OMyMeds. He is a Clinical Professor of Medicine and an Attending Physician in Pulmonary/Critical Care at UCI Medical Center.

**Sanjay Pathak, Senior Vice President of Consulting and Client Services, Kyruus**

In this role, Sanjay works closely with the company’s clients to achieve success in their patient access initiatives by aligning the Kyruus solution platform with their organizational and operational initiatives.

Prior to joining Kyruus, Sanjay served as Senior Vice President of Clinical Operations at Brigham and Women’s Hospital where his responsibilities included directing all Surgical Service lines, Peri-operative services, Anesthesiology, Radiology and Dermatology, as well as collaborating with BWH department chairs to develop and advance the strategic priorities of the organization. He also served as co-chair of the Dana Farber/Brigham and Women’s Cancer Center Operations Cabinet.

Prior to joining BWH in 2007, he served as corporate director of Business Planning and Market Development at Partners HealthCare, where he and his team analyzed and directed major strategic and capital projects for PHS. Sanjay also spent more than 12 years in management consulting for Cap Gemini and Deloitte, where he directed performance improvement, clinical information systems and strategic projects for large academic and integrated delivery systems across the country. He earned his MBA and MPH from Boston University.

**Dave Skibinski, President & CEO, SnapMD**

Dave has been in the healthcare industry for over 25 years. He also brings a proven record of success in the enterprise software and Internet / e-commerce business sectors. For over ten years he worked for GlaxoSmithKline (GSK) in sales, marketing and managed care roles. Dave has worked in the healthcare field across every sales and service channel in the industry including children’s hospitals, cancer centers, teaching institutions, and government healthcare care at the federal, state and local levels. His time in the industry spans the earliest days of capitation and risk sharing contracts to the formation of today’s Accountable Care Organizations. He is
known for his expert knowledge of healthcare systems and his skills in market analysis and strategy development.

Following his time with GSK, Dave was the founding Vice President of Sales, Marketing and Business Development for Cegedigm (then Dendrite International) selling enterprise CRM and analytics software, associated hardware, and services.

Dave is a serial entrepreneur and has founded and worked in over a dozen startups; including e-commerce companies. Dave is a co-founder of QuantumMethod a marketing and communications company with a significant book of work in the life sciences. For over a dozen years he has been a consultant to numerous startups assisting them with sales and marketing plans, business strategy, and preparing business plans, financial models and investor pitch materials. He has also consulted with a variety of life science companies to evaluate new product feasibility, create commercialization strategies, and license intellectual property. His client projects included work in exciting fields such as: microarray and CGH analysis software, three-dimensional ECG imaging, bio-signal processing systems, personalized medicine, engineered safety syringes, neurofeedback systems and services, nutraceuticals, feminine diagnostics and engineered safety syringes.

In addition to his BS in Biology from Indiana University, Dave holds an MBA from the University of Southern California.

**Bern Terry, Vice President, VGo Communications**
Bern Terry has 24 years’ experience in healthcare operations, starting with Philips Lifeline, where he worked with 700 hospitals and 200 home care providers. During his 15 years at Lifeline, Bern established national partnerships with the American Red Cross and VNAA which are still in operation.

He then managed service delivery and business development at Extended-Family, a provider of private-pay home care and support for aging in place. Bern now leads healthcare business development for VGo Communications, a leading developer and manufacturer of robotic telepresence solutions for tele-medicine.

Bern holds a BA in Economics from Middlebury College. During the summer, he and his wife Katie teach therapeutic horseback riding to children and young adults with disabilities and special healthcare needs.

**M. Jackson Wilkinson, Founder, Kinsights**
Jackson is also a product design and engineering leader at Kinsights, a smarter parenting community that is leading a new generation of patient and family engagement. Previously, Jackson was the Director of User Experience at Posterous (acquired by Twitter), and Design Lead at LinkedIn. He has worked with dozens of startups, established organizations, and the White House to build engaging products that help solve real problems for real people. Jackson graduated cum laude from Bowdoin College with degrees in Philosophy and Music, and roots for the Phillies through thick and thin.
